The dean&david allergen guide provides information on which allergens are contained in our range. In addition, any undesirable ingredients such as garlic and onions are also labelled and it is clear whether the products are vegetarian or vegan and whether they are suitable for pregnant women.

Not all products are available in all stores.

The nutritional values, allergens and product information in the respective store apply.

The following allergenes are marked:

Note to possible traces:

The information on allergens and suitability for pregnant women listed here refers to the ingredients used according to the recipe. However, as meat, fish and all allergens are also processed in our operations, we unfortunately cannot guarantee that, despite thorough cleaning, unavoidable cross-contamination takes place between all work steps and traces of allergens, possibly also fish, are contained. We also do not take into account any information about possible traces contained on the part of our suppliers.

	vegetarian: no meat, no fish, but eggs and dairy goods		vegan: no animal products, no animal fat or honey
